

As a Product Manager, I've empowered designers and developers to do their best work.

Brivity

Product Manager

NOV 2018 - SEPT 2019

- United engineering, product and design team to work in a collaborative “triad” partnership
- Established agile product lifecycle
- Increased and improved communication between remote and office team members
- Wrote product requirement documents and development stories
- Drove team to increased velocity and ship code reliably
- Processed user feedback and tracked user sessions to create a solid product strategy

Brivity

Web Design Manager

NOV 2017 - OCT 2018

- Led a team of four web designers to design a website for every new Brivity account
- Created a process in Trello to manage a design team producing 100 websites a month
- Customized websites for real estate teams
- Refined website templates and best practices for customization

During my time as a UX/UI designer, I developed my empathy for users and became their advocate.

Brivity

UX Designer

JAN 2017 - SEPT 2019

- Designed new features for a suite of software products targeted to real estate agents
- Mentored junior designers
- Conducted user research that included: interviews, card sorting, and prototype testing

Pearsons Packaging

HCI Designer

OCT - DEC 2016

- Collected existing elements to create style and interaction guides
- Designed new interactive components
- Conducted user interviews with current customers

Comrade Agency

UX/UI Designer

JULY - AUG 2016

- Designed UI following strict brand style guides for the Charles Schwab Advisor Portfolio Connect
- Refined, iterated, and defended my designs with rationale to the Schwab PM
- Wrote detailed redlines for engineering team

DesignMap

UX/UI Designer

OCT 2015 - JAN 2016

- Designed UX/UI for a new product, the Charles Schwab Equity Award Center
- Created high-fidelity prototypes using Sketch App and InVision
- Documented style and interaction guidelines
- Transitioned agency practice to create interaction guides using Sketch App
- Hosted conference calls with Schwab stakeholders to review most recent interactions
- Wrote detailed redlines for engineering team

FuturePerfect

UX/UI Designer

SEPT - OCT 2015

- Created low-fidelity prototypes using OmniGraffle
- Refined original wireframes to match final prototypes
- Designed UI for new features using Sketch App

During university, I learned the foundation and practical application of design.

Western Washington University

BA in Design

FALL 2011 - SUMMER 2014

- Completed design project from a starting brief to a finalized iteration
- Made websites and clickable prototypes with HTML/CSS

My skill set is specialized to create impactful technology products.

Coding Languages

- HTML / HAML
- CSS / SASS
- jQuery
- Bootstrap

Process Toolkit

- Trello
- JIRA
- PivotalTracker
- Basecamp
- ProductBoard

Design Toolkit

- Figma
- SketchApp
- InVision
- Adobe Suite
